

PRACTICE AND CIRCUIT USE

PURPOSE

The purpose of this Circuit Policy is to ensure that the club facility has a proper and safe use determination.

OBJECTIVES

To provide clear direction to the members, the restraints in place, its operating hours, fees applicable, a requirement for both members and visitors.

POLICY

The circuit use is for its members, and for events as arranged by the Executive Committee of the club. The members have use of the facility as advertised via the club website (<http://www.toowoombakartclub.com/home/practice-days/>) and as noted on the main gate signage. Special restrictions will be promulgated in the events calendar. There are dedicated fees for the use of the circuit for members and visitors.

Members and visitors are to ensure that they log in to the practice register log each day they use the circuit for practice and remit the required fee.

All safety and kart technical detail must be observed as for competition, with safety clothing, helmets, gloves, and footwear requirements.

It is customary that members are familiar with the regulations that you 'can only practice in equipment you are eligible to race for your age group'. This is particularly directed at parents/guardians of minors. And needs to be observed at all times.

In order to use the club facility you must have a club, or other valid motorsport /karting licence. Any use of the circuit without these conditions being met will be dealt with by the Executive Management of the club.

Members who wish to invite non licences holders outside of the club C&T organised day events are to ensure they complete a "Come and Try" application form ,and attach that document and the fees to the practice register.

There **must** always be one other person at the circuit whilst a kart is on the track..
